Instructions:

To obtain your software upgrade for Standard Horizon plotters please print out this form and after completing all sections, send it either by FAX to +44 (0)1962 856801, or by posting it to **Chart Plotter Upgrade Program, Yaesu UK Ltd, Unit 12, Sun Valley Business Park, Winnall Close, Winchester, Hampshire, SO23 0LB.**

We will process your order and send you the appropriate card for your plotter by post with instructions on how to perform the upgrade. You must agree to return the card by post at your expense to the address below.

Failure to return the card within 30 days of despatch will incur a £75.00 charge on your credit or debit card. By signing this form you are agreeing to the terms and conditions of this upgrade offer.

Software Version

The firmware version in your plotter can be found by following either of these methods:

Method A

- 1: Power OFF the plotter as normal.
- 2: Press and hold any key (Menu Key is suitable)
- 3: Whilst holding the key from 2 above press the POWER button to turn on the plotter.
- 4: After the plotter has booted you will see the System Test Screen as below.

- 5: The Firmware software version is the numbers after the V on the screen as indicated by the number #1.in the format XX.YY.ZZ.

Method B

- 1: Press Menu button and select Setup Menu
- 2: From Setup Menu select About Screen. Shown as About CP-180, CP-300, CP-500 depending on your model.
- 3: The software version number is contained in the first line after the V on the screen as indicated by the arrow #1 in the format XX.YY.ZZ
